

# Robit

## CS SERIES

### Casing Systems For Ground Drilling

# Robit CS SERIES

## Operational Benefits

- Fast drilling and easy handling
- Carefree drilling
- Straight holes
- No unnecessary flushing to soil

## Economical Benefits

- More holes in time unit
- Low set-up times
- Long pilot bit lifetime
- Low investment and running costs
- Even quality

## Robit® Service Benefits

- Customer orientation
- Reliable deliveries in more than 100 countries
- Advice on needs

## Automatic Spiral Locking (Patented)

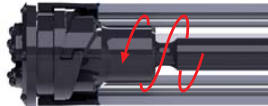

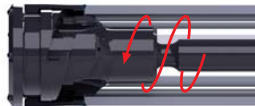

1) Drive the pilot bit through the casing tube

2) Rotate to locked position with the ring bit

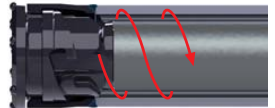

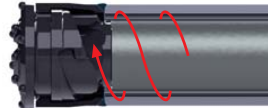

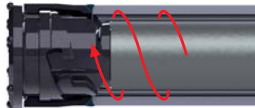

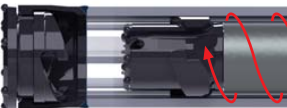

3) Robit® Casing System is ready to drill

4) Finish drilling by rotating the pilot bit in opposite direction and pulling it out

RoX

DTH-RoX
